Summary

Analyst with 4+ years of experience in process improvement, quality analysis, and data-driven decision support, working with Fortune 500 companies in retail, healthcare, and technology. Skilled in SQL, Excel, and BI tools (Power BI, Tableau) to track KPIs, improve workflows, and support operational efficiency.

Work Experience

Quality Analyst @ Walmart | West Coast Consulting, Arlington, Texas, United States Apr 2025 - Current

- Analyzed 500K+ operational records using SQL to identify inefficiencies and improve reporting accuracy.
- Built Power BI dashboards to track productivity and quality KPIs, improving decision-making speed by 20%.
- Supported time and motion studies to identify recurring quality issues, reducing process losses by 15%.
- Partnered with cross-functional teams to test process changes and standardize workflows across operations.
- Drive process improvements by providing feedback on tool integrations, cutting recurring quality issues by 15%.
- Documented findings and prepared reports to support continuous improvement initiatives.

Team Manager | University of Pacific – Athletics at Stockton, CA | (Concurrent Role) July 2024 - Dec 2024

- Led logistics for 20+ athletic events, improving coordination efficiency by 20%.
- Managed logistics and workflows for 20+ events, applying process improvement methods to improve coordination by 20%.
- Collected and tracked event KPIs to measure engagement and resource use.
- Developed schedules and allocation plans to optimize resources and reduce last-minute issues.
- Introduced feedback reviews and process documentation to support continuous improvement in event operations.

Business Analyst Intern | Discovery Homes Ltd | Remote | (Concurrent Role) Aug 2024 - Nov 2024

- Extracted and visualized sales/project data with SQL and Tableau, reducing reporting time by 25%.
- Conducted workflow analysis and testing, streamlining reporting processes and improving efficiency by 15%.
- Created dashboards and presented findings to leadership, enabling better tracking of KPIs.
- Collected user feedback and documented process changes to support project improvements.

Systems Engineer | Tata Consultancy Services, India Aug 2019 - Jul 2023

- Collaborated with QA and product teams to test features and support client deployments.
- Improved reporting speed and accuracy by optimizing SQL queries and creating dashboards.
- Produced workflows, documentation, and test plans to improve visibility during project delivery.
- Supported healthcare and telecom clients by preparing KPI reports and summaries for leadership.
- Applied problem-solving methods to improve system performance, reducing delays and recurring issues.
- Created and maintained standard work documents to support consistent processes and best practices across teams.

Technical Skills

- Process & Quality:** Time and Motion Studies, Lean / Six Sigma (basic), Process Mapping, Continuous Improvement
- Quality & Standards:** KPI Tracking, Root Cause Analysis, Standard Work Documentation, Quality Metrics & Reporting
- Data Analysis & Visualization:** SQL, Excel, Power BI (DAX, Interactive Reports), Tableau, Data Storytelling & Executive Reporting
- Programming & Tools:** Python (basic for analysis/automation), DBMS, Jira, ServiceNow, Microsoft Office Suite (Excel, PowerPoint, Word), Google Workspace
- Project & Collaboration:** Agile, SDLC, Sprint Reviews, Documentation, Cross-functional Teamwork, Stakeholder Communication, Requirements Gathering
- Business & Operations:** Supply Chain Metrics Analysis, ERP/WMS Systems, Inventory & Resource Planning, Operational Efficiency Improvement, Performance Tracking

Education

Master of Science in Business Analytics Dec 2024

University of the Pacific, Stockton, California, United States GPA: 3.50

Bachelor of Engineering in Computer Engineering July 2019

Guru Gobind Singh Indraprastha University, India CGPA: 3.0

Projects

Home Loan Prediction Analysis

- Analyzed factors influencing loan eligibility using Python and SQL.
- Built predictive models to classify safe vs. risky borrowers with 80% accuracy.
- Delivered actionable insights to support safer lending policies

Fraud Detection Optimization – American Express

- Developed predictive models to detect fraudulent financial transactions.
- Optimized detection thresholds to improve fraud identification accuracy.
- Presented findings and recommendations on fraud mitigation strategies.

Certifications

- AWS Certified Cloud Practitioner** – Amazon Web Services, Aug 2025 – Aug 2028
- Career Essentials in Data Analysis** – Microsoft & LinkedIn Learning, Mar 2025
- Data Visualization for Data Analysts and Analytics** – LinkedIn Learning, Jul 2025
